

Mainely Tubs
Leisure Time Free

Leisure Time (LT) products are the water care products which Mainely Tubs recommends for complete synchronization and sanitization.

WEEKLY MAINTENANCE DOSAGE CHART

Spa Volume (gallons)	WEEKLY [†]			AS NEEDED	
	Control	Boost Normal Use	Boost High Use*	Free (If level is 16-30 ppm)	Free (If level is 0-15 ppm)
100	1/2	1	2	1/3	2/3
150	3/4	1 1/2	3	1/2	1
200	1	2	4	2/3	1 1/4
250	1 1/4	2 1/2	5	1	1 1/2
300	1 1/2	3	6	1	1 3/4
350	1 3/4	3 1/2	7	1 1/3	2
400	2	4	8	1 1/3	2 1/2
450	2 1/4	4 1/2	9	1 1/2	2 3/4
500	2 1/2	5	10	1 1/2	3

All measurements are in liquid ounces.

Rinse scoop thoroughly after each use.

* Use high dosage rate if spa is used three or more times per week.

† If using an ozonator, test Free level every four days and adjust as necessary.

Once a Week:

1. Wipe down the water line with a non-abrasive scrub pad. (we recommend Tub Rub)
2. Check **Total Alkalinity and pH** using test strips. Adjust with **LT Spa Up** or **LT Spa Down** as needed, following the directions on the bottle.
3. Not the same day: Add 2 ounces **LT Defender**.
4. Same day as defender: Add 1 to 2 ounces of **LT Enzyme**
5. Add 1 to 2 ounces of **LT Bright and Clear**

Once a Month:

Remove filter(s) and clean using **LT Filter Clean**, following the directions on the bottle. Be sure to thoroughly rinse filters to remove all trace of cleaner. An extra set of filters will make this process easier.

Every 2 to 3 Months:

1. The day before draining, use **LT Jet Clean** to clean plumbing, follow directions on the bottle.
2. Terminate power to the spa.
3. Completely drain the spa per the instructions found in your owner's manual.
4. Clean your spa with **LT CLEANSE***
5. Use **LT Fast Gloss*** to protect and seal the spa.
6. Clean the cover surface with **LT Cover Care & Conditioner*** or **LT Cover Wipes***.
7. Refill the spa using a garden hose placed directly into the gray-capped filter standpipe.
8. Make certain the spa is circulating before allowing the heater to operate.

Chemical Start Up (for new water):

1. Balance **Total Alkalinity**
2. Balance **Calcium Hardness**.

3. Wait a day, check and adjust **PH level** as needed.
4. Add 16 ounces **LT Metal Gone**.

FREE START-UP DOSAGE CHART

Spa Volume (gallons)	Control	Boost	Free
100	1	2	2/3
150	1 1/2	3	1
200	2	4	1 1/4
250	2 1/2	5	1 1/2
300	3	6	1 3/4
350	3 1/2	7	2
400	4	8	2 1/2
450	4 1/2	9	2 3/4
500	5	10	3

All measurements are in liquid ounces.
Rinse scoop thoroughly after each use.

Notes:

1. To eliminate foaming use **LT Foam Down**.

*not included in start-up kit

½ OUNCE = 3 TEASPOONS
