Who uses Clear Water Spa Care?

The Clear Water Spa Care program is used by many spa owners. Some are only home on the weekends and would rather spend their precious time using their spa. Some owners have physical challenges that make even routine tasks difficult. Some spa owners just enjoy the security of having a trained professional check and maintain their spa.

When will my Spa be serviced?

The Clear Water Spa Care program is managed by routes, with tubs in a given geographic area being serviced generally on the same day each week.

Why should I have Mainely Tubs Service my Spa?

The technicians from Mainely Tubs are trained in the operation, repair, and maintenance of spas, and spa water care is what we do well.
